

REPORT TO PICKMERE PARISH COUNCIL

1st October 2019

AGENDA ITEM 8.7 ARRANGEMENTS FOR COMPOST PILE AT THE IROS

1. Report

1.1 A member of the public has in the past raised his concern about the area used for the deposit of grass and vegetation cuttings at the IROS. This issue has been considered and it is considered that that the deposit of such material in this location (see photograph below) is entirely appropriate since it means that:

- such cuttings do not have to be transported off-site (at additional cost);
- the compost pile is appropriately located away from normal public circulation areas;
- it is not unsightly;
- further, relatively undisturbed areas such as this have some benefit from a nature conservation point of view.

1.2 For these reasons it is proposed to leave arrangements as they are.

2 Recommendation

2.1 That the report be noted.

Jack Steel
Clerk to Parish Council
