

REPORT TO PICKMERE PARISH COUNCIL

5th November 2019

AGENDA ITEM 9.3 RISK ASSESSMENT FOR COUNCIL PROPERTIES

1 Report

- 1.1 It is appropriate that the Council considers and adopts a risk assessment profile for its buildings and land. Such a profile helps create an awareness of potential hazards and the risk that may result in harm, particularly to people, and permits evaluation of how likely and severe the risk is, and then determination of what measures should be in place to effectively eliminate or control the harm or the risk of it occurring.
- 1.2 A draft risk assessment for the various property holdings of the council is appended. Certain items are marked in red where it seems that early action is required. Comment is requested on all aspects of the draft, and especially if any omissions are evident.

2 Recommendation

- 2.1 That the draft risk assessment be adopted, with any amendments proposed by council, and that council identify any additional actions that are required.

Jack Steel
Clerk to Parish Council
