

****Draft Letter to Local Residents from Pickmere Parish Council****

Dear Resident,

We hope this letter finds you well and enjoying the beautiful surroundings of our village. One of the many things that makes Pickmere such a wonderful place to live is the lush greenery that graces our roadsides and gardens. Your hedge, in particular, adds to the charming, rural character that we all cherish and helps maintain the natural beauty that defines our community.

We understand and appreciate that many of you have been mindful of national advice to avoid cutting back hedges during the bird nesting season. This consideration is vital to preserving the wildlife that shares our environment. However, with the growth season now behind us, some of our hedges have flourished a bit more than usual, leading to potential encroachment on pavements and highways. This could pose a challenge for pedestrians, cyclists, and other road users, particularly as the weather changes and daylight hours shorten.

With this in mind, we would kindly like to request that as you begin your seasonal garden maintenance, you consider trimming your hedge back a little further than last year. Doing so will not only help maintain clear and safe passageways for all but will also ensure that your hedge continues to contribute positively to the village's landscape without causing any unintended issues.

We greatly appreciate your attention to this matter and your ongoing efforts to keep Pickmere looking its best. Together, we can ensure that our village remains both beautiful and safe for everyone.

Thank you for your cooperation and support.

Warm regards,

[Your Name]
